Experience

Oct 2016 - July 2017

Bloc

Design & Front- End Apprenticeship

- Collaborated remotely with a seasoned Designer to develop my design approach over an intensive, project-based program
- Produced UX deliverables, such as user flows, wireframes and mockups

Dec 2015 - March 2017

Helpshift

Customer Success Manager

- Owned a client portfolio of mobile gaming and e-commerce customers; sustained average MRR growth by 8% on average
- Managed all product training initiatives from end to end (webinars, newsletters and knowledge base content)
- Developed industry-specific customer health metrics for the team to better forecast LTV, net churn and NPS scores
- Collaborated with Sales/Product to create strategic implementation plans that aligned with our customer's goals and surfaced expansion opportunities

Oct 2013 - Dec 2015

Lyft

Voice of Customer Specialist

- Worked cross-functionally to maintain a high performing help center (measured by page views/session and email deflection)
- Led multiple on-site training workshops for outsourced customer support teams
- successfully developed and launched a live chat channel for Lyft's Lost and Found feature
- Managed relationship with many of the department vendors, including Zendesk & Directly.
